Secure Offsite Backups

Simple, Reliable, Affordable Data Protection!

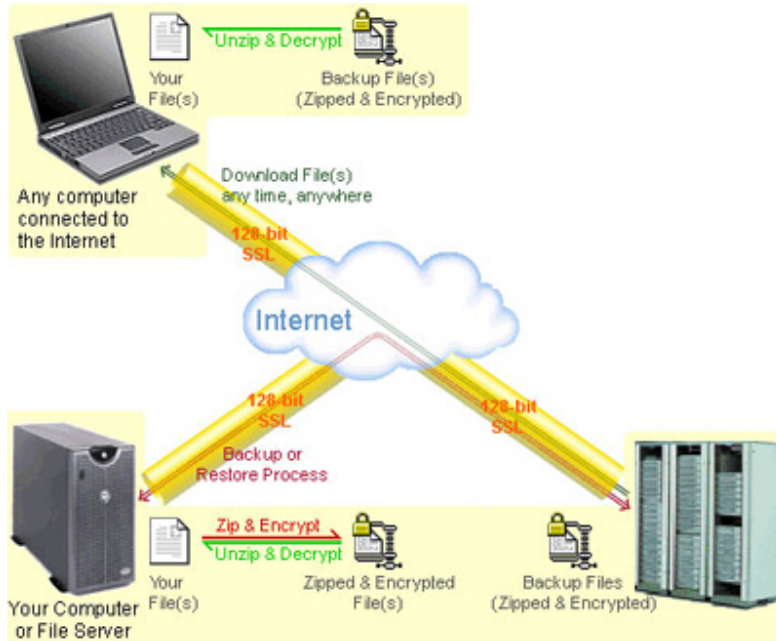

Complete Offsite Backup Archive Services

Don't continue to hide your head in the sand! We have a simple solution to allow you to prevent losing data to disaster, deleting mistakes, corruption, or hardware failure.

Some Key Features and Benefits:

- **Off Site Backup Services:** Is your business data protected from being lost or destroyed by disasters? You need our low cost offsite backup protection. No tape to load, no one to call, just open a browser and restore the files. The interface is simple & fast with absolutely no training required.
- **Simple Web Interface:** Just point your browser to a URL we provide click to install a thin client. Setup your backup features and never worry about important files again.
- **Backups Transfer through Secure Layer:** All transmissions to our archive server are secure. You need not worry about someone trapping your information.
- **Complete Security:** If security is an issue, the software supports 128 bit two fish encryption providing complete confidence. If you use this algorithm you can be sure that your key would be the only key to allow only you to view or restore your data.
- **Control your Restore IP:** Another level of protection which is built into the application is to define what IP address will be the restore destination. So even if someone should get your logon and password, it would do little good if the restore destination has been predefined.
- **Platform Compatibility:** Our backup software supports most all platforms. Support for Windows 98, Windows 2000, Windows XP, Windows NT, Linux, Unix, and MAC OS X
- **Developer, Home user, or Business:** We can accommodate files of any-size. We can provide 100's of gigs of space. So we can handle as much as you need! Need to restore your files? No one to call just click the button and restore your files anywhere in the world.

Graphically, How it works

Offsite Data Backups Pricing Matrix

The cost for offsite backups is based off monthly data backed up. If you have an Exchange Email server, then the MS Exchange Store backup is included. If you need Granular per mailbox backup and recovery, then the Email backup service which is called Brick Level Backups; pricing is below in the next section.

<u>STORAGE (GB)</u>	<u>PRICE PER GB</u>	<u>MONTHLY PRICE</u>	<u>YEARLY PRICE - 10% Discount</u>
5	\$ 5.00	\$ 25.00	\$ 270.00
